CUMULATIVE EDITORIAL INDEX

Including July 1963 through December 1963. Number preceding hyphen is month of issue; those following are page numbers.
AUTOMATION *is indexed in the Applied Science & Technology Index and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 313 N. First St., Ann Arbor, Mich.*

A

Accumulating, 10-80
Actuation system, 12-23*
Adaptive control, 10-142
Adhesive, curing, 9-22*
Analyzers,
  chemical, 12-82
  chromatographic, 9-58
Applying, multiple coatings, 8-84
Assembling,
  parts, prob., 11-4*
  printed circuit boards, prob., 12-4*
Assembly, 10-37; 12-50
  ball stud units, 9-37
  C-ring, 9-80
  seat spring, 9-37
  sleeve onto wire, 7-132*
  using threaded fasteners, 10-71
Assembly lines, history, 7-33
Assembly machine, for cigarette lighter parts, 12-75
Automatic, assembly with threaded fasteners, 10-71
Automatic control, dictionary of, 9-139*
Automation,
  British conference on, 11-47
  British railroads, 10-43*
  and computer process control, 10-48
  conference on manufacturing, 9-14*
  economic efficiency of, 8-65
  and fixed-price development, 12-64 12-64
  and foreign competition, 8-45
  history, 7-33
  integrating corporate functions, 11-63
  of low volume plants, 8-136
  and marketing overseas, 8-45
  philosophy, 7-33; 8-142*
